WAS OSLO ALWAYS DOOMED?

Created by Yoav Duman

The 1993 forecast

Recognition

Read the two letters. Identify what each side recognized.

The interim plan

Identify one issue that would have to be settled later.

Your forecast

Predict one observable sign of progress or strain.

Implementation and passage

Wye	Compare what was scheduled with what happened. Identify who could act.
Settlement population	Use the same geography, measure, and interval for both comparisons.
Gaza–West Bank route	Weigh the temporary route’s record alongside the later proposals.

The verdict

Choose an outcome	Explain the missed May 1999 target or the January 2001 talks ending without a deal.
Weigh the evidence	Test a rival explanation and revisit a claim from your forecast.
Follow a rule forward	Trace how tax collection and transfers affected funds available for Palestinian services.

Writing and submission

Word count

Aim for 550–650 words across four rounds. The class report requires at least 500.

For Class

Write in the response field. You can rearrange text copied or cut from that response.

Save and submit

Back up your draft, then print, download, or copy the completed class report.
